*Music, Social Media and Global Mobility : Myspace ...*

This book is about the relationship between media, communication and globalization, explored through the unique empirical study of electronic music practitioners' use of the global social media: MySpace, Facebook, YouTube and Twitter. To understand the significance of the emerging nexus between social media and music in a global context, the book explores various aspects of production, distribution and consumption among electronic music practitioners as they engage with global social media ...

*Music, Social Media and Global Mobility: MySpace, Facebook ...*

Drawing on interview-based research with electronic music artists, DJs, producers and managers, together with the historical portrayal of the emergence of global social media this pioneering study aims to capture a development taking place in music culture within the wider transformations of the media and communications landscape; from analogue to digital, from national to global, and from a largely passive to more active media use.

It's a question that Los-Angeles-born social media and DSP-management company East Goes Global claims to have answered. The company aims to bridge the social media gap between the US and China, and is led by its 27-year-old founder and CEO Andrew Spalter. Spalter started working with British pop star Jessie J when at management firm MDDN.
