Grandparents play a significant role in a lot of people's childhoods. In general, people look back and see how their grandparents were always there for them, ready to play whatever game they wanted or buy them some candy or toy that their parents wouldn't. Children adore their grandparents. But things change when they have their own children, and their parents become the grandparents.

The Role of Grandparents in the Family - Exploring your mind

My maternal grandmother was the most amazing woman, she had a kind and pure heart. She was forgiving and was unconditionally loving towards everyone not just family. My grandparents have always inspired me because the decisions they made allowed me to live the life I am living today.

The Story Of My Grandparents

Grandparents are often warm and gentle beings, people that offer a cuddly pair of hips for little arms to hug or a kind and soft ear to lend to dishevelled teenagers. You can lean on them when having a baby changes your life. And they are always non-judgmental guides that assist their children in being great parents as people perceive them.

If you are a Boomer, chances are that you never knew your great-grandparents, but that you will know your great-grandchildren. Thanks to our longer, healthier life spans, more of us will live to be great-grandparents. One Census Bureau official, quoted in a New York Times piece, said we are in the middle of a great-grandparent boom. The official estimated that by 2030, most 8-year-olds will have at least one living great-grandparent.

### The Role of Great-Grandparents

Grandparents are the parents of a person's father or mother - paternal or maternal. Every sexually-reproducing living organism who is not a genetic chimera has a maximum of four genetic grandparents, eight genetic great-grandparents, sixteen genetic great-great-grandparents, thirty-two genetic great-great-great-grandparents, etc. In the history of modern humanity, around 30,000 years ago, the number of modern humans who lived to be a grandparent increased. It is not known for certain what ...
