Cloth masks have been used in healthcare and community settings to protect the wearer from respiratory infections. The use of cloth masks during the coronavirus disease (COVID-19) pandemic is under debate. The filtration effectiveness of cloth masks is generally lower than that of medical masks and respirators; however, cloth masks may provide some protection if well designed and used correctly.

Cardiovascular and respiratory disease. Cardiovascular and respiratory diseases are the leading causes of premature death worldwide; in the UK alone, 1 in 4 of us will die from heart disease and 1 in 5 from lung disease. Half of all deaths from heart disease are sudden and unexpected. In this theme, we will focus on how we can:
